Comments: I won't waste my time quoting your unlimited numbers of documents/reports - I am simply stating the fact that this agency commits hideous animal cruelty under the guise of research. There are millions of citizens in USA who find your legalized protected right to torture helpless imprisoned animals, a tragedy and a shame on our nation, and its people. There is nothing so cruel than inflicting terror, endless pain and elongated and agonizing death and suffering to defenseless beings. It is disgusting to read your cold, callous factual accounts of the horror these innocent creatures endure by your hands.
